## ACCIDENT ADVANTAGE

### Accidents happen. Help make sure your employees are prepared.

Peace of mind doesn't happen by accident. It occurs when your employees have a plan that helps protect them in the event of the unexpected — such as a fall on the front steps or when a child gets hurt at soccer. But when an injury does occur, you can help them stay in control of the costs with Aflac Accident Advantage.

Now they can focus on recovery instead of bills — at no direct cost to your business.

Even if your employees have medical insurance, they may still have out-of-pocket expenses such as deductibles, co-pays and other costs. Aflac Accident Advantage pays cash benefits directly to them<sup>1</sup> that they can use for any expense, from groceries to bills. Best of all, it comes from Aflac, a name families have trusted for more than 60 years.

#### In addition to delivering cash benefits, Aflac offers:

- One Day Pay,<sup>SM</sup> only from Aflac<sup>2</sup>
- Cash benefits paid directly to your employees to use as they see fit
- Portable – Employees can take the plan with them wherever they go
- A wellness benefit they can use for routine, preventative care

#### FACT NO. 1

## CANCER CARE

### In the fight against cancer, your employees have an ally.

When an employee receives a cancer diagnosis, it can be not only emotionally devastating, but financially overwhelming as well. That's why Aflac developed **Cancer Care insurance**, a simple way to help protect your employees' financial health when the unthinkable happens.

### Aflac lets your employees focus on their recovery, not unforeseen expenses.

Cancer is one of the five most costly medical conditions.<sup>1</sup> And, major medical insurance usually doesn't cover all of the expenses that can come with it. In fact, one in eight patients with advanced cancer turned down the recommended treatment because of the cost.<sup>2</sup> But **Aflac Cancer Care** gives your employees extra cash to help deal with the unexpected expenses associated with cancer — at no direct cost to your business.

### In addition to delivering cash benefits, Aflac offers:

- **One Day Pay**,<sup>SM</sup> only from Aflac<sup>3</sup>
- **Cash benefits** paid to directly to your employees<sup>4</sup> to use as they see fit
- **Guaranteed renewable** as long as the premium is paid
- **Cash wellness benefit** they can use even for routine, preventative care

#### FACT NO. 1

In the U.S., men have slightly less than a

**1 IN 2**

lifetime risk of developing cancer.<sup>5</sup>

#### FACT NO. 2

In the U.S., women have slightly more than a

**1 IN 3**

lifetime risk of developing cancer.<sup>5</sup>

## February Month End Review

- We have had 0 instance(s) of the internet dropping since last reported on February 5<sup>th</sup>, 2020 (the last reported outage was recorded November 29<sup>th</sup>, 2019 at 16:32:17 and the downtime lasted for 0 hrs, 39 mins)
- The laptop for 67 was received.
- The battery backup for the TV in the Bays is in need of replacement. Additionally, the computer in the Bays was installed April 2016 and is nearing the end of its useful capacity. It is recommended that rather than replace it with another computer, the TV itself should be replaced with a Smart TV with a built-in web browser and this would eliminate the need for a computer attached to the TV.
- The tablets for 66 & 67 are waiting for the Spillman software from the County.
- The security license on the network firewall is up for renewal in April.
- It was reported in December 2016's report that when the ID machine was serviced, the service tech advised that there are pixels on the imaging print head that are fading, and that it would degrade the quality of images and text printed and would cause us to replace the print head in the future. The printer has been out of warranty, and the manufacturer moved it to EOL status on May 2<sup>nd</sup> 2014. The replacement for a new print head is ~\$900 + labor, however, the manufacturer has stopped producing parts as of April 30<sup>th</sup>, 2017 and any parts available are limited stock, if applicable.

It is recommended that the Board replace the ID machine with the current model by HID Global, the DTC4500e System

Respectfully submitted,

Peter Hall  
Information Technology Officer

# HID® FARGO® DTC4500e High Capacity Plastic Card Printer & Encoder

Fast, high-capacity card printing and encoding

## Overview | Specifications

- **Side Printing:** Single or dual
- **Print Method:** Dye-sublimation / resin thermal transfer
- **Resolution:** 300 dpi
- **Print Speed:** 16 seconds per card / 225 cards per hour (YMCKO)
- **Included Software:** Embedded Swift ID® badging application and FARGO Workbench™ printer maintenance and diagnostic software with Color Assist™ spot-color matching
- **Data protection:** AES-256 encryption on the printer over a secure network
- **Card capacity:** 200 card input (with dual input hopper), 100 card output

## Accepted Card Sizes

- CR-80
- CR-79 Adhesive Back

## GreenCircle® Certified Product:

Provides organizations with a high-performance, energy-efficient photo ID printing solution that supports corporate sustainability initiatives while reducing costs. The sustainable attributes of HID card printers were third-party certified by GreenCircle Certified, LLC. The certification process verified up to a 57% energy savings for the DTC4500e card printer. The default time for sleep mode has been factory-set to five minutes, and printer design enhancements reduce the power consumption while in standby or sleep mode. Energy savings are calculated based on an assessment to a comparable product currently sold in the marketplace.
